Rahul Sharma

Experiences

BlissfulBloom Co| Cyber Security Analyst   June 2023 – Sept 2023
- Conducted security monitoring and threat detection, responding to security incidents to mitigate potential threats.
- Assisted in the development and implementation of security policies and risk management strategies.
- Collaborated with the security operations centre (SOC) to investigate and analyse security incidents.

EcoWave Innovations | Security Analyst   Jan 2023 – Feb 2023
- Assisted in endpoint security, implementing security best practices, and raising security awareness among employees.
- Participated in security audits and ethical hacking activities to identify vulnerabilities and strengthen security controls.
- Conducted incident handling, including log analysis and data breach investigations.

Projects

Threat Detection and Response System   GitHub
- Implemented a threat detection system using SIEM and intrusion detection systems (IDS).
- Developed and executed incident response plans to address security incidents effectively.
- Enhanced network monitoring and performed network traffic analysis to identify and mitigate threats.

Penetration Testing and Vulnerability Assessment   GitHub
- Conducted penetration testing and vulnerability scanning to identify security weaknesses.
- Collaborated with the team to develop risk assessments and improve security controls.
- Analysed web application security and conducted secure code reviews to ensure data   privacy and compliance.

Education

B. Tech – Cyber Security   CGPA: 8.14
G. H. Raisoni College of Engineering

Skills

- Threat Detection
- Incident Response
- Security Monitoring
- Vulnerability Assessment
- Intrusion Detection
- Security Policies
- Risk Management
- Malware Analysis
- Security Architecture
- Network Security
