Vaishnavi Mishra

Experiences

HealthFusion Labs| Data Analyst   Nov 2021 – Dec 2021
- Conducted in depth data analysis to identify trends, patterns, and anomalies in datasets.
- Created data visualizations using tools like Tableau and Power BI to communicate data insights effectively.
- Collaborated with cross functional teams to provide actionable recommendations based on data analysis.

SolarFlare Technologies| Statistical Analyst   Feb 2022 – April 2022
- Performed exploratory data analysis (EDA) and regression analysis to understand data relationships.
- Collaborated on classification and clustering algorithms for customer segmentation.
- Utilized natural language processing (NLP) to extract insights from unstructured data.

Projects

Data Visualization Project   Tabaleau

- Designed and developed interactive data visualizations to display key performance metrics.
- Utilized data storytelling techniques to convey complex findings to non technical stakeholders.
- Played a critical role in improving data driven decision making processes within the organization.

Education

B. Tech – Data Science   CGPA: 9.20
G. H. Raisoni College Of Engineering

Skills

- Data Analyst
- Data Analysis
- Data Visualization
- Data Manipulation
- Data Querying
- Data Profiling
- Data Transformation
- Data Aggregation
